**ENDORSEMENT**

**Honourable Harry Slade, Chairperson**

A Case Management Conference (CMC) was held by teleconference on August 15, 2018, at 1:00 P.M., Eastern Time (Ottawa).

[1] The expert evidence hearing is scheduled for March 19-21, 2019, in Saskatoon, Saskatchewan. The hearing is tentatively scheduled for the Wanuskewin Heritage Park.

[2] On or before **November 21, 2018**, the Respondent shall inform the Claimants and the Tribunal as to whether it intends to rely on its expert report on volume of timber. If it intends to rely on it, it will provide a copy to the Claimants on that date.

[3] The Claimant Lac La Ronge Band indicated that if, upon reviewing the Respondent's expert report, it determines that a responsive report is necessary, it intends to provide a responsive report on or before **January 2, 2019**.

[4] The Claimant Montreal Lake Cree Nation indicated that it anticipates that any response to the Respondent's expert report will be a joint response, subject to a review of the Respondent's anticipated expert report by the Claimant Montreal Lake Cree Nation.

[5] A Pre-Hearing Conference will be held by teleconference on **February 14, 2019**, at 1:00 P.M. Eastern Time (Ottawa). If any Party considers that a CMC would be helpful in December 2018, the Party may contact the Registry to schedule a CMC.

[6] A hearing on all remaining issues including compensation is scheduled for May 27-31, 2019.
